

Please reject NAB'S petition 04-160. I pay to have the instant access to weather and traffic reports. It is invaluable due to being available on demand as needed. Traditional radio gives traffic reports every 10 to 15 minutes. With traffic the way it is in Dallas, you can be in a lot of trouble in 15 minutes if you have to wait. Also it would seem to me with the terror threat we would want all the emergency reports we could get to better inform all the public.
